Re: Locust-Spider Mine
ACT/037/008

Dear Mr. Tetting:

I am writing in response to your June 7, 1982 letter concerning a review of the above referenced mine's file. I have found no major problems with the "Application History" as you wrote it, however, I could not find the correspondence of February 15, 1977 and February 21, 1977 regarding a confidentiality request. Would you please forward copies to me?

As you requested, enclosed is a copy of the 1980 Annual Operations and Progress Report. I have been unable to locate a copy of the 1977 Report.

The surface facilities have not changed and the surface map you now have is current.

This should complete the review of the Locust-Spider Mine files. Please contact me with any questions you may have.

Respectfully,

Ricky J. Broschat

RE: Annual Reports 1980 for:
Ivy, Probe, Velvet, Patti
Ann, Rim Columbus, Radium
King, Locust Spider, Wind-
fall, Dunn Standard #2,
Pandora, Louise.

Dear Mr. Smith:

Enclosed are the annual reports for 1980, including revised surface maps for the Velvet and Probe Mines.

As you can see no mine site reclamation has been done during the year since all mines are either operating or awaiting reopening. Each mining operation is preceeding in accordance with the originally submitted and amended mining and reclamation plans.

Reclamation work to date has been confined to drill site grading and reseeding.

If you have any questions please call.

Respectfully,

Ricky J. Broschat
Reclamation Scientist
